

DOUTHITT HEAVY DUTY VACUUM FRAME MODEL DML

The wall model vacuum frame uses only six inches of floor space in vertical position. This unit attaches to the wall and folds down out of the way when not in use. Loads glass down and then tilts up to the vertical position for exposing.

FEATURES

- Special Douthitt “Deep Draw” blanket.
Under vacuum, this blanket swiftly molds itself to the shape of the screen frame and holds your positive in perfect contact.
- Heavy duty vacuum pump and motor
- Vacuum relief bleeder valve mounted on instrument panel
- Finger tip control of blanket frame is achieved by exclusive patented spring and fulcrum system
- Easy glass cleaning; exclusive system
- Optic clear A-1 select glass
- Ten foot service cord
- All heavy gauge steel welded construction
- Vacuum gauge and operational switches housed on convenient instrument panel
- Floor type adjustable leveling screws
- Unit finished in easy to clean, long wearing epoxy enamel
- Positive locking device

OPTIONAL ACCESSORIES

Douthitt Heavy Duty Model 26 silent air pump instead of standard pump and motor (this pump requires compressed air)

Custom units and special sizes are available upon request.
