

DOUTHITT WALL MOUNT VACUUM FRAME MODEL DMW

The wall model vacuum frame uses only six inches of floor space in vertical position. This unit attaches to the wall and folds down out of the way when not in use. Loads glass down and then tilts up to the vertical position for exposing.

FEATURES

- Special Douthitt “Deep Draw” black blanket. Under vacuum, blanket swiftly molds itself to the shape of the screen frame and holds your positive in perfect contact.
- Heavy duty vacuum pump and motor
- Counterbalanced sliding weights, concealed inside tubes, provide effortless raising of the blanket frame and tilting of the glass and blanket frames
- Optic clear A-1 select glass
- Ten foot service cord
- All heavy gauge steel welded construction
- Positive locking device
- Unit finished in easy to clean, rust resistant, long-wearing epoxy enamel

OPTIONAL ACCESSORIES

Douthitt Heavy Duty Model 26 silent air pump instead of standard pump and motor (this pump requires compressed air)

Custom units and special sizes are available upon request.

Electrical specifications: 220 Volt, single phase. Available in any size.
