

Remove IR27

Universal Ink Remover With Very Low Foam Characteristics

Applications

Recommended to clean solvent-based, UV-cured & textile inks

Characteristics

- Flash point >200°F (93°C)
- No foam & low odor and can be used for manual or automatic cleaning
- Can be mixed with Remove ER products and used as one-step ink & stencil remover solution

Features/Benefits

- Emulsifies for easy water rinsing and avoids formation of ghost images
- Eliminates mesh stains when used to remove plastisol inks
- High efficiency formula reduces product consumption
- Universal performance reduces the need for multiple ink removers
- Can be re-applied after stencil removal to reduce ghost images

Directions For Use

Use a spatula to scrape excess ink from screen. Apply the product to squeegee side of the screen. Use a non-abrasive brush to scrub both sides of the screen until the ink is liquefied. Starting from the bottom, rinse ink residue from the screen with water.

Health & Safety

Before using, refer to appropriate Safety Data Sheets. Contact SAATI at info.US@saati.com to request SDS.

Storage

When sealed in the original container and stored in cool conditions, SAATI chemical products will maintain their original properties for one year from the date of production.

Packaging

Available in one quart and one, five, and fifty-five US gallon containers.
